

Visualising **Architectural Imaginations**
into Reality with

DynamicX PLUS

At Dynamic X, we transform architectural concepts into vivid, tangible experiences. With our expertise in CGI, animated walkthroughs, and interactive visualisation, we help architects, designers, and developers bring their visions to life before a single brick is laid.

Our visualisation services bridge the gap between concept and construction enabling faster approvals, better client understanding, and smoother project execution.

What We Offer

Our Services

At Dynamic X, we bring architectural visions to life with cutting-edge CGI and immersive visualisation solutions designed to inspire.

From photorealistic CGI still images that capture every detail of your designs, to 3D animated walkthroughs that let clients experience spaces before they're built, we ensure your concepts are communicated with clarity and impact.

Our Interactive Walkthroughs provide engaging, real-time exploration of proposed developments, allowing users to navigate, customise, and interact with architectural spaces in a virtual environment. Whether for planning approvals, client presentations, or design validation, our solutions empower architects and developers to present their projects with accuracy, creativity, and confidence.

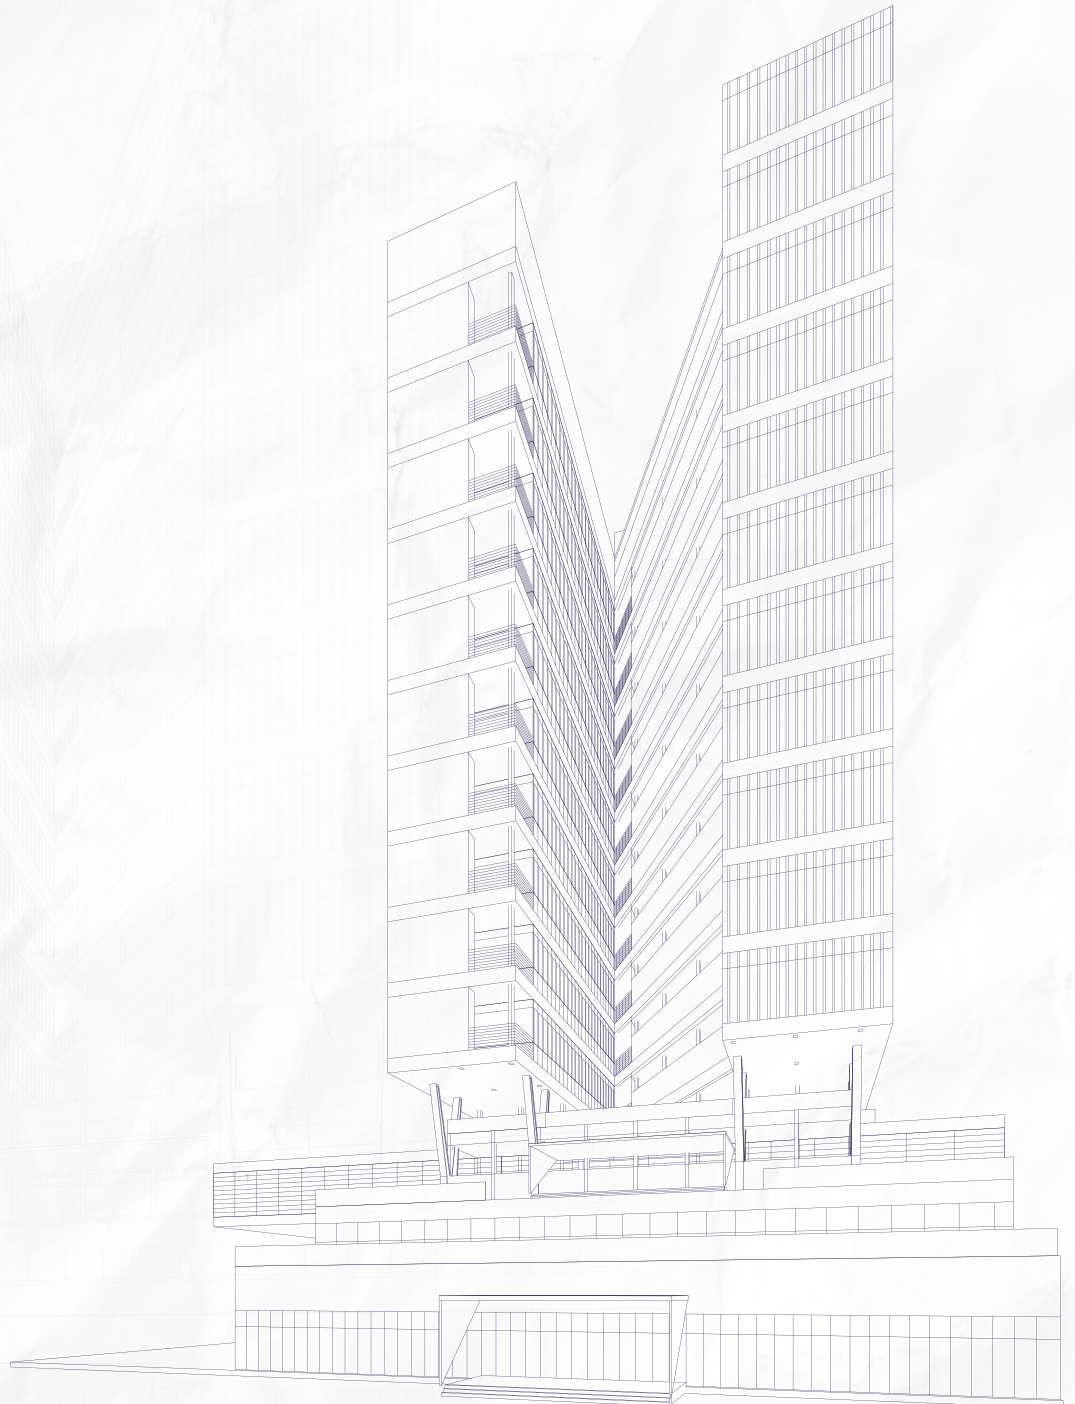

CGI Still Images

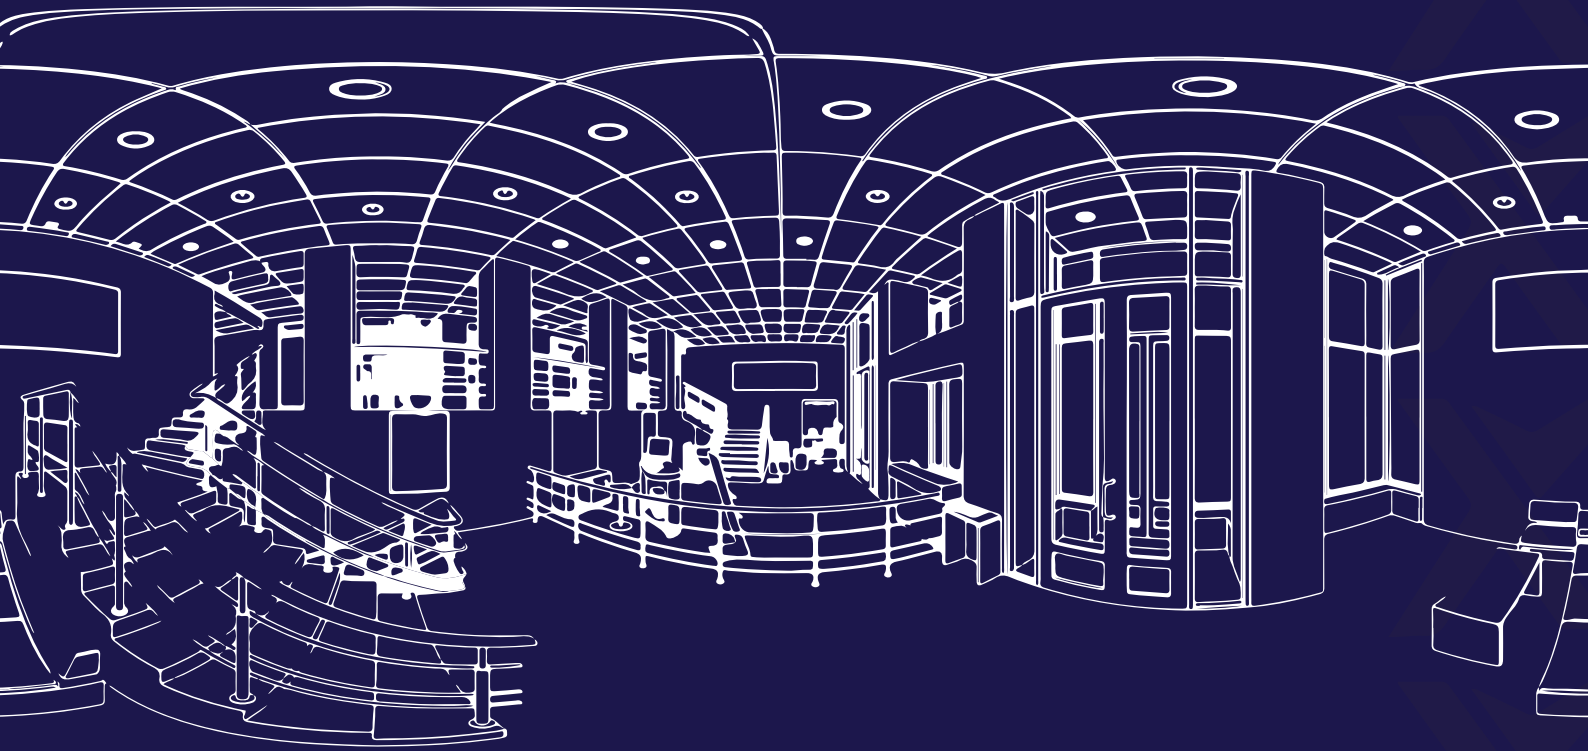

Experience your design before it's built.

Our CGI Still Images brings imagined architectural designs to life with photo-realistic accuracy. Perfect for planning approvals, marketing, and presentations, these visuals capture every structural detail and material finish to illustrate your vision with impact.

3D Animated Walkthroughs

Step into your future spaces.

3D Animated Walkthroughs offer immersive journeys through your proposed developments. From interiors to landscapes, we visualise your full architectural scope, helping stakeholders and clients understand the space, flow, and purpose behind your designs.

Interactive Walkthroughs

Immerse your clients in the engineering world with VR/MR Product Simulation Applications. These interactive tools allow users to explore your products in virtual or mixed reality settings. Simulate real-world uses, test features, and see how your products work in an interactive 3D environment. Perfect for product demonstrations, and client engagement, these applications provide a unique way to showcase your engineering innovations, improving understanding and decision-making.

Why Choose Dynamic X Plus for Architectural Visualisation?

Photorealistic Quality

Delivering high-definition CGI with remarkable detail.

Immersive Client Experience

Turn designs into interactive, walkable environments.

Faster Approvals & Better Communication

Visuals that speak louder than drawings.

Expert Visualisation Team

Professional support throughout your project lifecycle.

Our Value Models

Fixed Price

You set the budget, we stick to it. The full scope, requirements, terms, and specifications are agreed upon before the start of the project and can't be changed later.

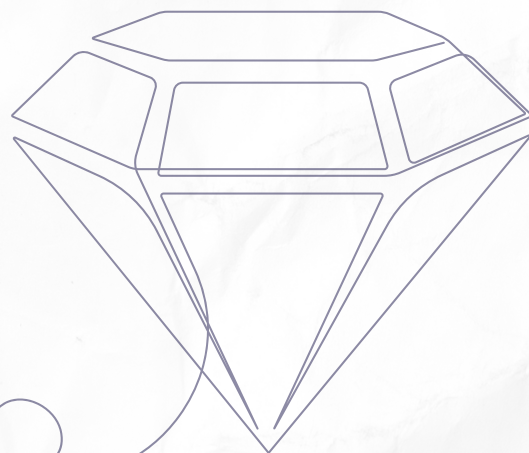

Time & Material

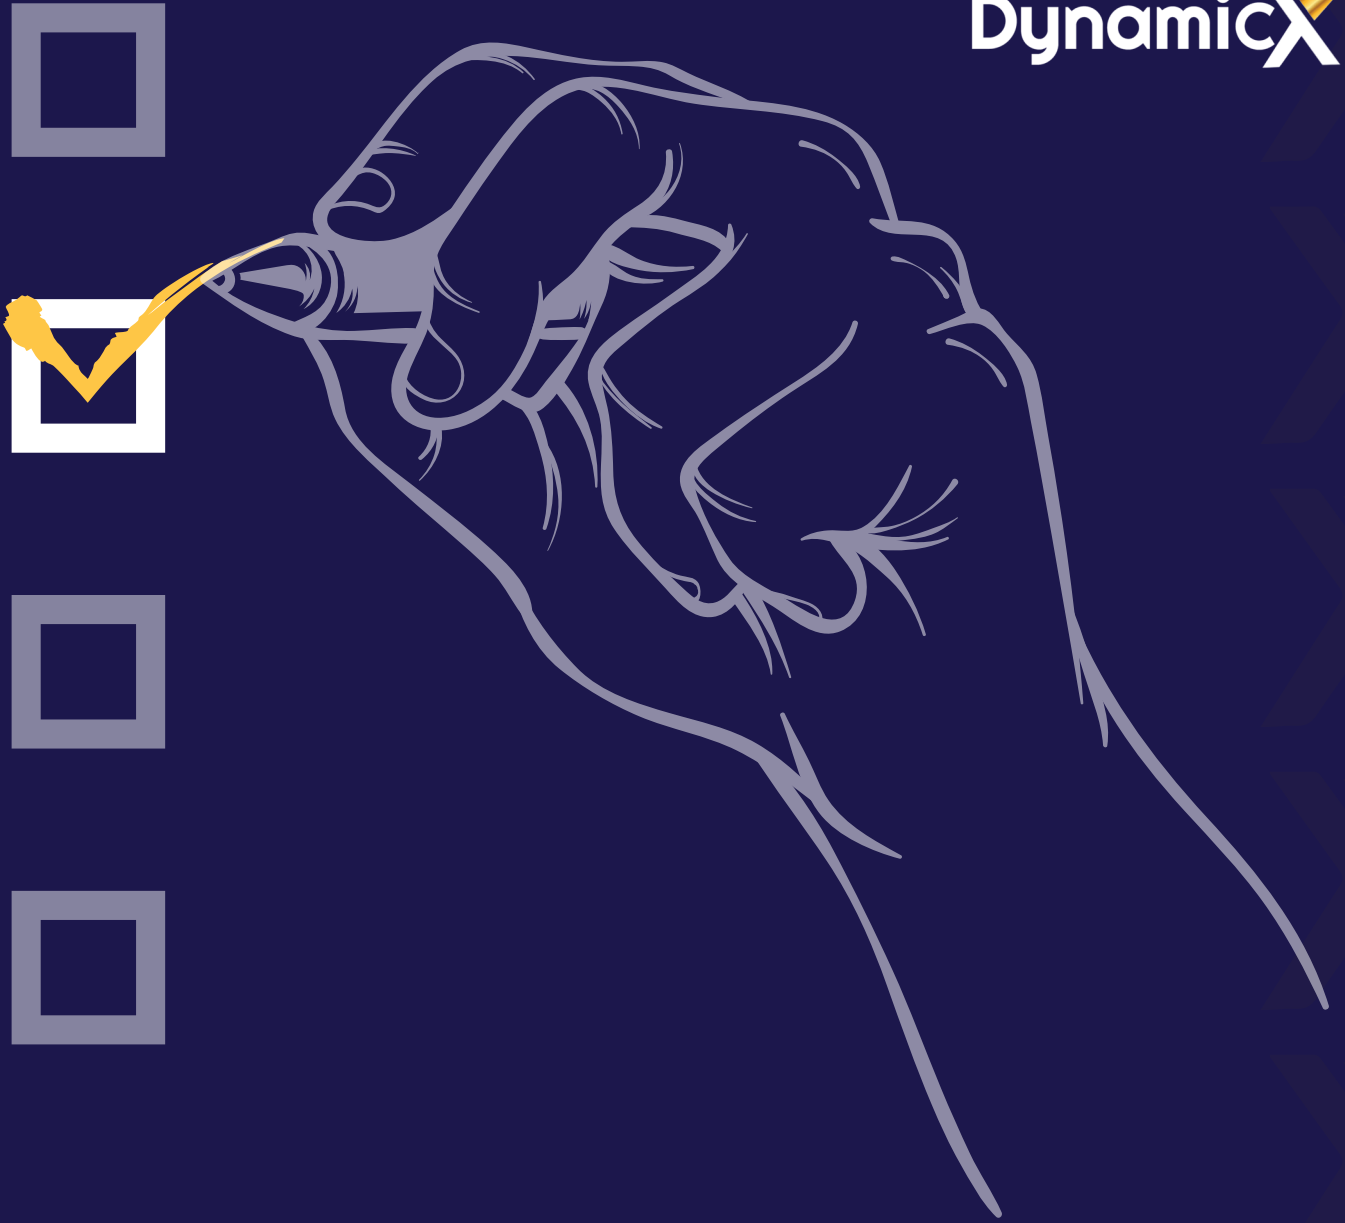

This calculates cost based on time and material spent, leaving room for changes to the budget and scope of the project over time.

Dedicated Team

A complete team (or a single expert from our staff) joins your existing specialists on the project. This team stays under your management and can be scaled up/down over time.

What You Can Choose

Flexible contract terms and hourly rates
 Exact development plan and documentation
 Clearly predefined requirements and timelines
 Fixed estimation of project costs
 Scalability and flexibility of term
 Easy communication with any team member
 Strong PM and all round QA included
 IP protection and NDA
