

Redefining **Utility Planning** with

DynamicX PLUS

At Dynamic X Plus, we transform utility infrastructure with advanced CGI, interactive walkthroughs, and immersive applications. From subsurface networks to above ground utilities, our visualisation Services empower engineers, planners, and public sector organisations to explore, plan, and communicate with clarity and accuracy.

Whether you're mapping underground pipelines, assessing utility conflicts, or demonstrating safety procedures, we deliver immersive, interactive solutions that bring utility projects to life.

what We offer

Our Services

[Explore More](#)

At Dynamic X, we bring utility infrastructure to life with cutting-edge CGI and immersive solutions designed for accuracy and impact.

From photorealistic CGI visualisations that detail every pipeline, cable, and system, to interactive walkthroughs that let users explore utility layouts in real world contexts, we make complex designs easy to understand.

Our Utility Planning Platforms and 3D/4D Sequencing Visuals offer engaging, customisable experiences enabling planners, engineers, and stakeholders to visualise, assess, and optimise utility networks with confidence. Whether for project planning, stakeholder presentations, or risk analysis, our solutions empower utility professionals to present and refine their infrastructure with clarity, innovation, and accuracy.

Utility Planning Walkthroughs

Experience your utility infrastructure like never before.

Our Utility Planning Walkthroughs allow you to navigate each proposed development in an immersive 3D environment. Walk through your designs, explore interiors, and visualise the layout of pipelines, cables, and systems bringing your utility vision to life with clarity and depth.

3D/4D

Sequencing CGI

Turn complex planning into clear, step by step visualisations. Our 3D/4D Sequencing CGI maps the entire utility construction process, from initial groundwork to final implementation. This allows teams to reduce risks, plan with accuracy, and communicate project phases with confidence and visual impact.

Why Choose **Dynamic X Plus** for **Utility** **Planning?**

Accurate Utility Mapping

Lifelike visualisation of subsurface and surface systems.

Risk-Free Simulations

Training and planning without real-world danger.

Better Communication

Visual tools that clarify data for teams and stakeholders.

Interactive Engagement

Visual tools that clarify data for teams and stakeholders

Our Value Models

Fixed Price

You set the budget, we stick to it. The full scope, requirements, terms, and specifications are agreed upon before the start of the project and can't be changed later.

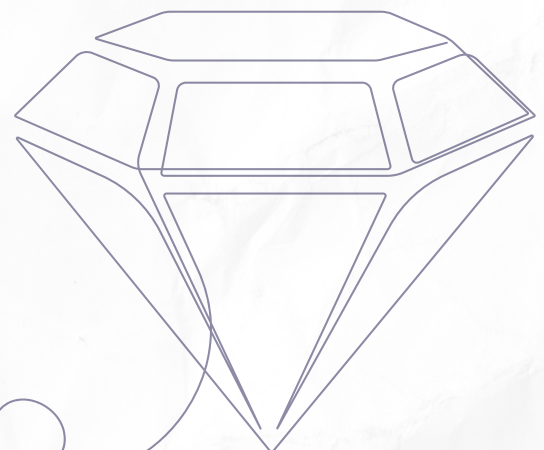

Time & Material

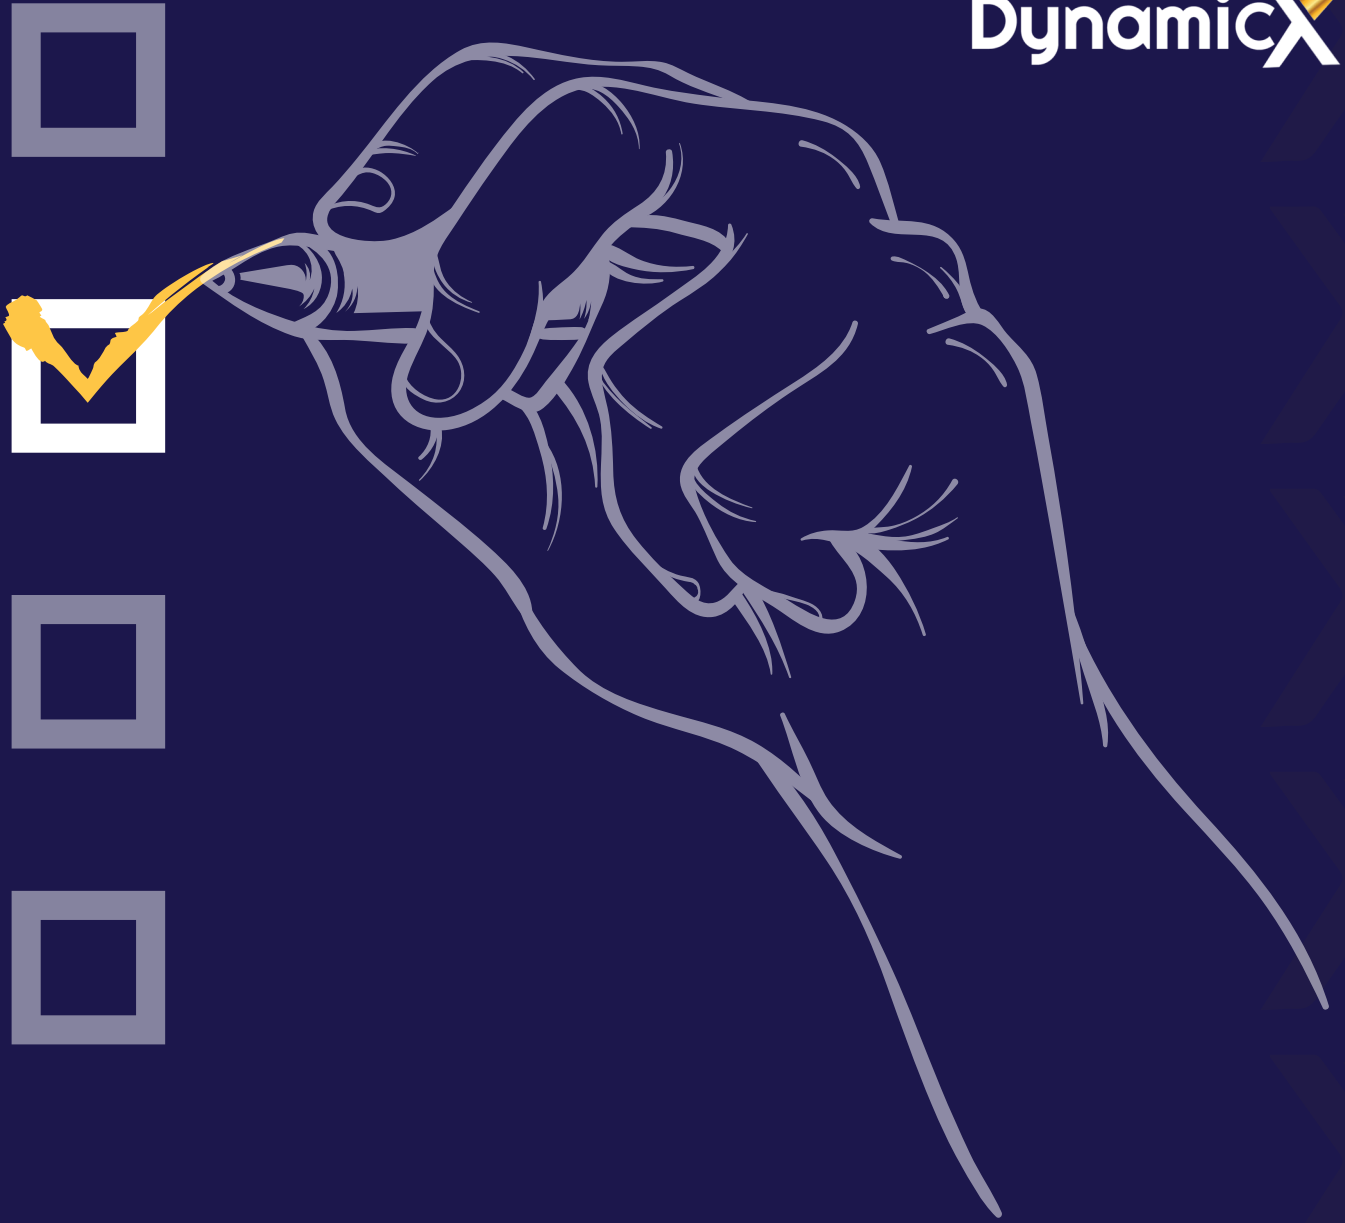

This calculates cost based on time and material spent, leaving room for changes to the budget and scope of the project over time.

Dedicated Team

A complete team (or a single expert from our staff) joins your existing specialists on the project. This team stays under your management and can be scaled up/down over time.

What You Can Choose

Flexible contract terms and hourly rates
 Exact development plan and documentation
 Clearly predefined requirements and timelines
 Fixed estimation of project costs
 Scalability and flexibility of term
 Easy communication with any team member
 Strong PM and all round QA included
 IP protection and NDA
